Bill Hepler, Director of Computing Operations
Pacific Industrial Scale Co. Ltd.
9111 River Drive
Richmond, BC V6X 1Z1

Dear Bill Hepler:

The purpose of this letter is to grant approval to your product, **PacWeigh Version 6.00** as a software application for Harvest Billing System (HBS) use.

Previous versions of your software have been approved for HBS use. Version 6.00 meets these previous standards, plus the additional requirement to incorporate the Ministry approved algorithm for the selection of random samples. Only Version 6.00 and subsequent revisions are considered as suitable for use with HBS. Older versions must be replaced.

If you have any questions concerning this approval, please contact me at 250-356-1955 or be email at Jim.Crover@gov.bc.ca.

Yours truly,

Jim Crover RPF
Scaling Policy Forester
Revenue Branch
