

PACIFIC INDUSTRIAL SCALE CO. LTD.

PORTABLE TRUCK SCALES

CANADIAN WEIGHTS & MEASURES APPROVED

NTEP USA APPROVED

Pacific Industrial Scale Co. Ltd. offers two portable truck scale designs, *Pacific Portable Shallow Pattern Truck Scale* and *Pacific Portable RoadHugger Truck Scale*.

The Shallow Pattern and RoadHugger both boast a low profile (16" high) design. Pacific's Shallow Pattern has been built to withstand rugged environmental conditions and is easy to set up, while the RoadHugger is excellent for narrow and confined areas and is the most compact design for transporting. Either truck scale will successfully and accurately operate on any hard flat surface when using wood timbers, metal plates, or concrete blocks for temporary foundations.

PACIFIC PORTABLE SHALLOW PATTERN TRUCK SCALE

- Fully electronic, low maintenance
- Built-in tire guards and bull rails
- Load cells mounted directly under main beams
- Checkerplate steel deck
- Lengths from 25' to 150'
- Widths from 10' to 14'
- Capacities 30 tonne to 150 tonne
- Special sizes and capacities available
- Excellent for rugged environments

PACIFIC PORTABLE ROADHUGGER TRUCK SCALE

- Minimal foundation costs
- Checkerplate steel deck
- Lengths from 25' to 150'
- Widths from 10' to 14'
- Capacities from 30 tonne to 150 tonne
- Special sizes and capacities available
- Ideal for narrow and confined areas
- Compact design for easy transportation

To compliment your truck scale, Pacific has a variety of electronic equipment available for capturing data at the scale. This can be done manually with a scale operator or fully automated with a non-attending scaling system. From stop/go traffic lights to complete hardware and customized software PC packages, Pacific Industrial Scale Co. Ltd. offers a complete line of weighing equipment to best suit your business needs.
